How to use

Before using VELUREX FRESHEN UP clean the floor; use VELUREX Cleaner Star for cleaning lacquered wooden floors and VELUREX Resina Clean for cleaning resin floors.

The floor must be completely dry before apply VELUREX Freshen Up.

It is advisable to make a preliminary test before the application. Prepare the white cloth microfiber of Base Mop Clean by slightly soaking with water.

Pour a wavy line of VELUREX Freshen Up on a defined section of the floor following the wood grain. Spread the product with a Base Mop Clean.

Notes

- Do not use over any waxed or oiled floor.
- Make sure the perfect adhesion of VELUREX Freshen Up onto UV water lacquer, if poor sand with 220 paper grit or green pad before the application.
- Perform a small test if not sure of the results. The floor can be walked after 2-3 hours, but avoid heavy traffic and furniture replacement and rugs the first 12-24 hours.
- The cleaning of the floor can be done after one week and has to be made with above mentioned VELUREX range of products.

Recommended use once or twice a month.

Warnings
